

LOCOMOTIVES - DIESEL

A. Original Equipment Manufacturer (OEM)

The following OEMs offer noise controls for new diesel locomotives as standard equipment. Local dealers may be contacted for further details.

Manufacturer	Exhaust Muffler	Enclosed Power Train	Optional Treated Operator Cab (Cost)	Other Noise Controls
Brookville Mining	X	X	(\$5,000+)	
Eimco	X			
Goodman	X			

"X" indicates product availability.

B. Retrofit Noise Controls

The effectiveness of the retrofit noise controls depends on the quality of the acoustical materials and the installation.

Consider:

Installing composite acoustical material around the operator compartment.
Enclosing transmission when located near the operator. Contact the locomotive manufacturer to assure that you do not cause an overheating problem.

C. Alternative Technology

None identified at this time.
